

Empowering Connectivity

Desktop UHF RFID Reader

Technical Data Sheet

RD-4SFF-303001

Product Information

SKU	RD-4SFF-303001
-----	----------------

Description

RD-4SFF-303001, desktop RFID reader designed for versatility and efficiency. With its sleek design and compact footprint, the RD-4SFF-303001 seamlessly integrates into any workspace, making it the ideal solution for retail operations, inventory management, and logistics. Boasting a precise reading zone, it can simultaneously read multiple RFID tags, enhancing productivity during transactions and stock assessments. Whether for asset tracking, event management, or supply chain optimization, the RD-4SFF-303001 delivers exceptional performance and reliability for a wide range of applications.

Technical Specification

Electrical Specification		Extension antenna ports	3 ports
Operating Frequency	866-868Mhz EU 902-928Mhz FCC	External antenna port connector	SMA female
Working Protocol	EPC Class 1 Gen 2 (ISO18000-6C)	Interface	
Power	12 VDC Consumption: 3.5W max.	Connection	USB Type-C
RF Output Power	Max 33 dBm, configurable (@1dBm per step)	Mechanical Specification	
Antenna Gain	8dBi, circular polarization	Cover	Acrylic + ABS
Reading Distance	0~3m (depends on tag as well)	Size, L (mm)	313
LED Indicator	Static LED: Power Blinking LED: Tag Detection	Size, W (mm)	313
Working Temperature	-20°C ~ 60°C	Size, H (mm)	24
Weight	1.5 kg
