PART NUMBER WT-PC-103

NEXTWAVES SEA 1

FREQUENCY RANGE

2.4 / 5.8 GHz

WIRELESS STANDARD

802.11 b/g/n

ANTENNA TYPE

Cabin / near-field marine transceiver

Compact marine Wi-Fi transceiver for cabin, deck, and protected installation zones.

APPLICATIONS

- Maritime Communication
- Vessel Tracking
- Offshore Operations
- Marine Navigation

FEATURES

01 Dual-band 2.4 / 5.8 GHz operation

02 802.11 b/g/n wireless standard support

03 SISO cabin / near-field marine transceiver design

04 Indoor / protected outdoor housing for cabin and deck zones

05 12 VDC power input for onboard electrical systems

TECHNICAL SPECIFICATIONS

Frequency Range (GHz)	2.4 / 5.8
MIMO/SISO	SISO
Enclosure	Indoor / protected outdoor housing
Power	12 VDC
